

# 5G - enabling Europe's digital and green transformation

**5G Forum, 6-7 May 2020**

***Peter Stuckmann***

Head of Unit, Future Connectivity Systems

DG CONNECT

European Commission

6 Commission priorities for 2020-24 – Political Guidelines for the von der Leyen  
Commission  
(16 July 2019)

1. *A European Green Deal*
2. *An economy that works for people*
3. ***A Europe fit for the digital age***
4. *Protecting our European way of life*
5. *A stronger Europe in the world*
6. *A new push for European democracy*

# A Europe fit for the digital age

Joint standards for our 5G networks

Technological sovereignty in some critical technology areas

Jointly define standards for blockchain, HPC, quantum, algorithms

Initiative for a coordinated EU approach on the human & ethical implications of AI

A new Digital Services Act will upgrade liability and safety rules for digital platforms

A Joint Cyber Unit to speed up information sharing and better protect ourselves

Full digitalisation of the Commission

Update the Digital Education Action Plan

European Education Area by 2025

European Green Deal

# 5G opportunities

## FACTORIES OF THE FUTURE

- 1 Time-critical process control
- 2 Non time-critical factory automation
- 3 Remote control
- 4 Intra/Inter-enterprise communication
- 5 Connected goods

## ENERGY

- 1 Grid access
- 2 Grid backhaul
- 3 Grid backbone

## e-HEALTH

- 1 Assets and interventions management in Hospitals
- 2 Robotics
- 3 Remote monitoring
- 4 Smarter medication

## MEDIA & ENTERTAINMENT

- 1 Ultra High Fidelity Media
- 2 On-site Live Even Experience
- 3 User/Machine Generated Content
- 4 Immersive and Integrated Media
- 5 Cooperation Media Production
- 6 Collaborative Gaming

## AUTOMOTIVE

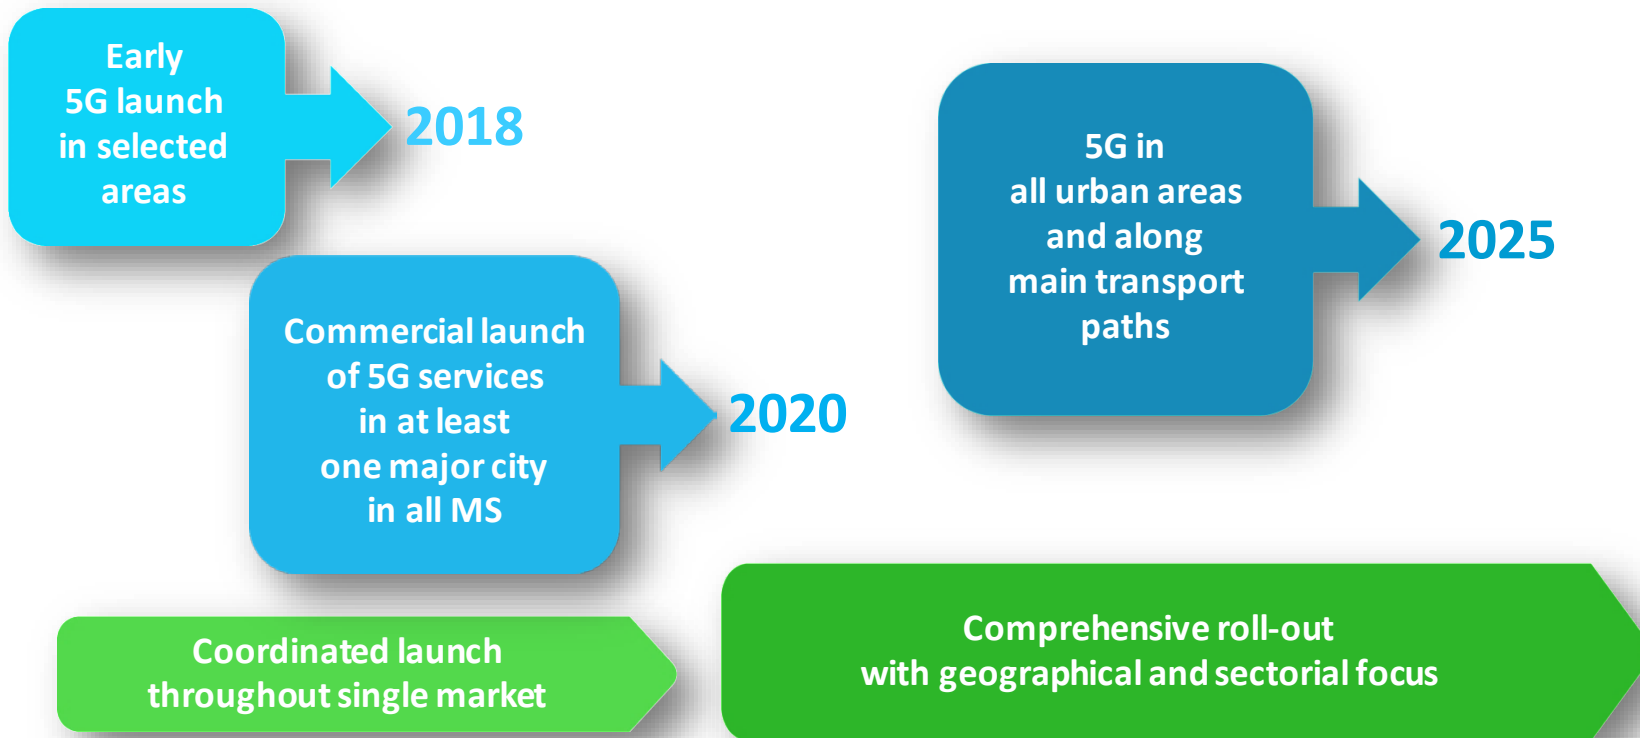

- 1 Automated driving
- 2 Share My View
- 3 Bird's Eye View
- 4 Digitalisation of Transport and Logistics
- 5 Information Society on the road

# 5G and COVID-19

- *Increasingly critical nature of digital services*
  - Technology sovereignty is at the heart of 5G and later 6G
  - Gaining even further significance in light of COVID-19
  - Europe's capacity to set evolving 5G and later 6G standards
  - Role of equipment suppliers of strategic importance
- *Addressing COVID-19*
  - Communication networks critical especially in times of crisis
  - 5G/6G for remote health/ care as well as rapid health crisis response
  - Economic recovery through major infrastructure investment programmes
    - Ideal instrument for rapid economic recovery
    - Major opportunities for SMEs as part of new 5G-based digital ecosystems

# 5G Action Plan: European strategy for 5G introduction

# 5G PPP Phase 3

## € 300 million for trials

User needs, partnerships with vertical industries

5G R&I for "Long Term Evolution"

Phase 3 b) Large-scale trials with focus on verticals

5G Connected Cars in EU cross-border corridors

Phase 3 a) Verification Demo/Trial Platform

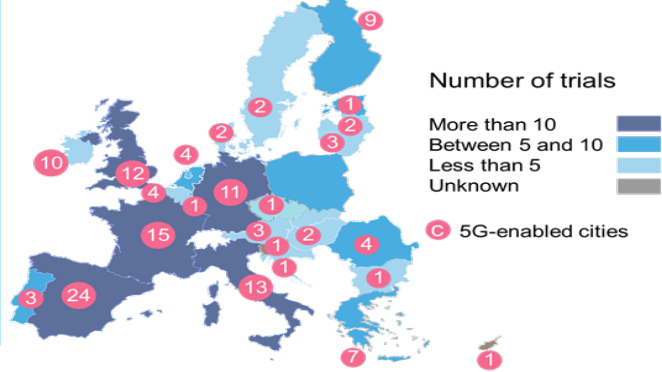

Phase I Core Technologies

Phase 2 - Demos Proof of Concept Core Techs/ Components

5G trials | 5G cities

**181** 5G trials in the 28 Member States **138** Future 5G-enabled cities

**11** 5G Cross-Border corridors

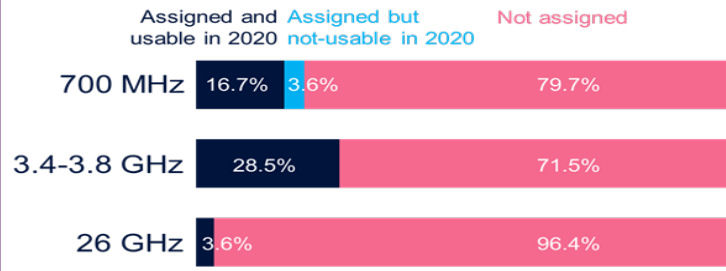

5G corridors

5G Cross-Border corridors

5G pioneer spectrum

**16.2%** 5G spectrum assigned throughout the EU\*

\* 16.2% represents the total amount of spectrum assigned in all Member States. The figure is expected to increase following the recently updated EU telecom rules.

**11** Member States have published national 5G roadmaps

5G roadmaps and national plans

## 5G SCOREBOARD: INTERNATIONAL

 **June 2018**  
Elisa (Network only)

 **October 2018**  
Verizon (FWA)

 **December 2018**  
AT&T (network only)  
**Early 2019** AT&T  
(end-user devices)

 **April 2019**  
Verizon (mobile services)

 **May 2019**  
Sprint (mobile services)  
**June 2019**  
T-Mobile (pre-launch)

### COMMERCIAL LAUNCHES

2018

2019

 **December 2018**  
(business users)

 **April 2019**  
(end-users)

 **May 2019**  
EE

 **May 2019**  
T-Mobile Austria

 **June 2019**  
Vodafone

 **June 2019**  
Vodafone, Digi

 **July 2019**  
Vodafone

 **August 2019**  
Vodafone

 **Autumn 2019**  
Commercial launch

 **August 2020**  
Olympic Games 2020

2019

2020

 **June 2019**  
TIM, Vodafone

 **July 2019**  
Vodafone

 **August 2019**  
Three (FWA)

 **September 2019**  
T-Mobile

 **October 2019**  
Orange

 **End 2020** 5G launches by end of 2020 in all Member States (5G Action Plan)

## 5G SPECTRUM

Low bands: spectrum assigned and not yet assigned (among identified spectrum)

Mid bands: spectrum assigned and not yet assigned (among identified spectrum)

High bands: spectrum assigned and not yet assigned (among identified spectrum)

# 5G Corridors

- Vision: **Pan-EU 5G corridors** for Connected and Automated Mobility
- **Private investment** with public funding of cross-border and "challenge" areas
- Large-scale **testing** using Horizon 2020 (€80M)
- Large-scale **deployment** using CEF Digital (up to €3B)
- **Blending** or coordination with InvestEU and national programmes

## Horizon Europe 2021-2027

Support the creation and diffusion of high-quality knowledge

Strengthen the impact of R&I in supporting EU policies

Foster all forms of innovation and strengthen market deployment

Optimise the Programme's delivery for impact in a strengthened ERA

# Beyond 5G – Towards 6G

- *Create a human-centric Internet reflecting European values*
- *Towards connected intelligent critical infrastructures*
- *Develop lead markets, e.g. 5G deployment at cross-border corridors for Connected and Automated Mobility*
- *Address Sustainable Development Goals*
- *Leverage connectivity towards new value chains, e.g. in the area of cloud, IoT as well as components and devices*

## CEF DIGITAL 2021-2027 - €3 billion

*Alignment with Gigabit Society Strategy objectives: supporting MS in addressing the overall funding gap (€155 bn) with strategic projects*  
*Complementarity with Digital Europe Programme, structural funds & InvestEU*

- Cross-border 5G automotive corridors (but also railways, inland waterways)
- Gigabit connected hospitals, schools, business parks, public Wi-Fi & coverage of surrounding areas (5G communities)
- Key international/ cross-border connectivity

## 5G Strategic Deployment Agenda for CAM

- *Elaborated with the participation of stakeholders, the SDA aims at maximising CEF2 Digital intervention by:*
  - Defining deployment priorities and roadmaps
  - Identifying appropriate cooperation models and investment strategies
  - Advising on most suitable regulatory incentives

***Input for CEF pillar of the Smart Networks and Services partnership***

## HORIZON EUROPE

### Remaining and new challenges:

- Higher capacity – Zero Latency Internet
- Spectrum challenges (TeraHertz, flexible use)
- Advanced Radio processing
- Close user data control - IoT– Privacy/security
- Energy consumption

### Opportunities and needs:

- Smart devices, (edge) Networks, Data Processing,
- Value Chain perspective
- Better involvement of Member States and national initiatives

## DEP & CEF

### Targeted actions towards deployment and capacity building:

- 5G corridor deployment for CAM
- Connectivity of socio economic drivers
- Smart cities
- AI/Cybersecurity /blockchain deployment in networks

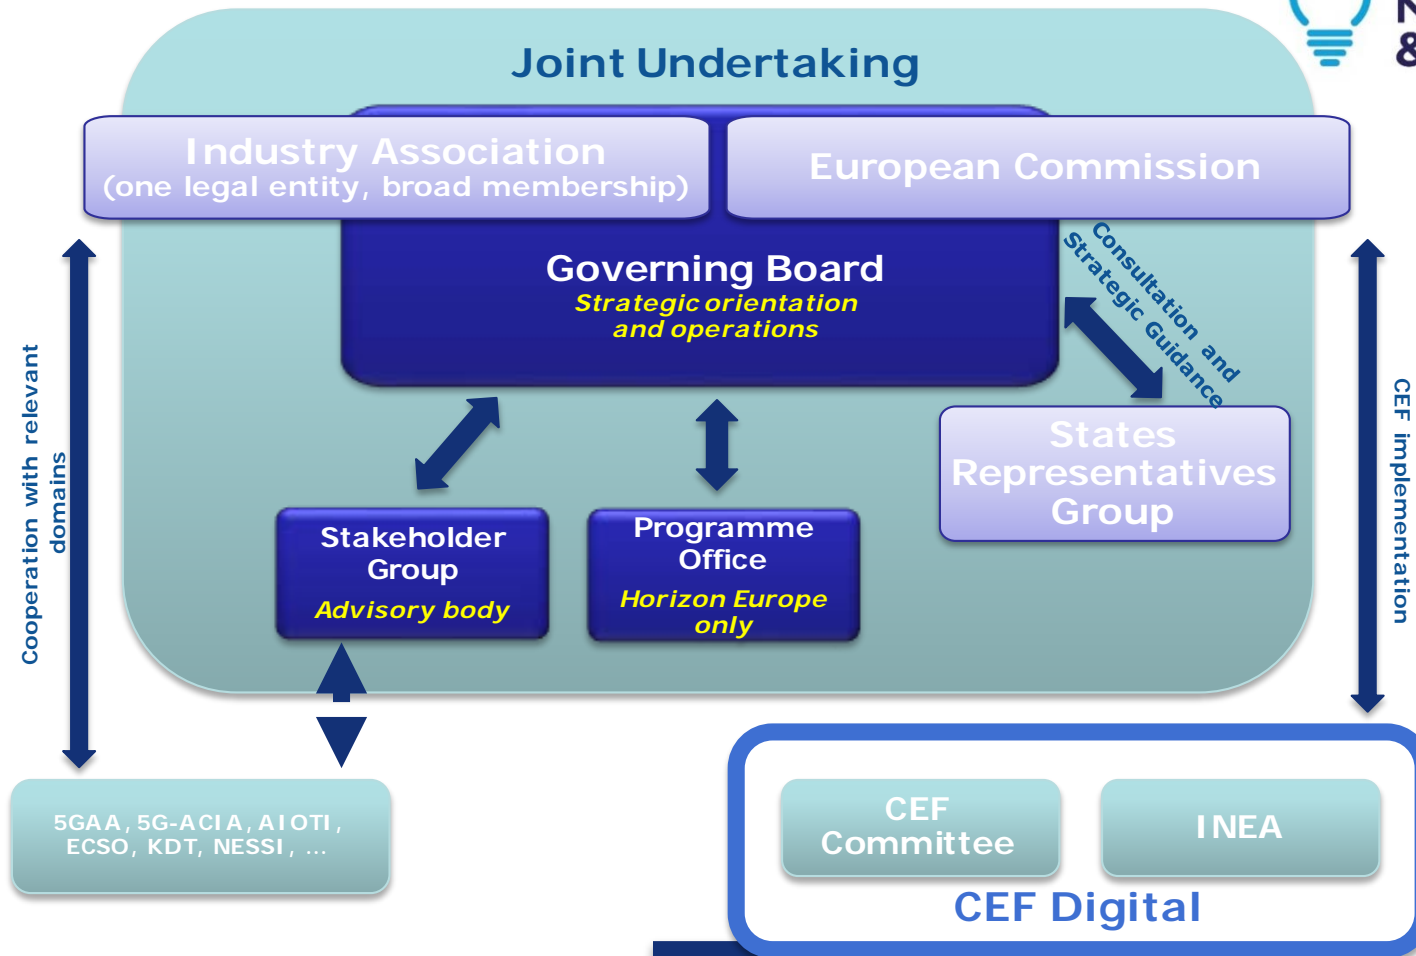

## Considering an institutionalized partnership

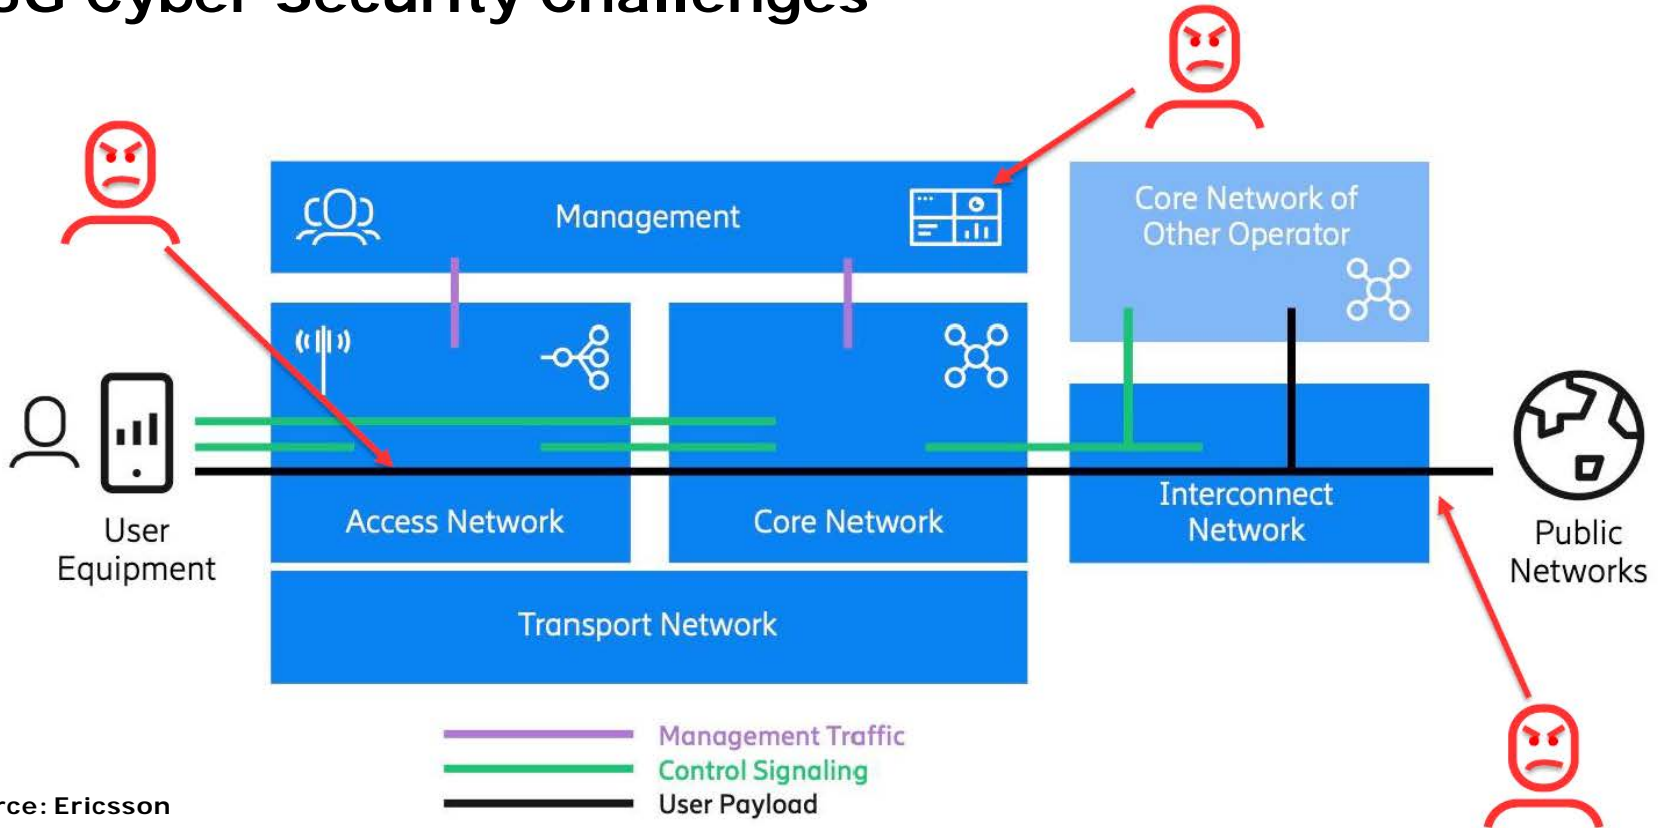

- Ensure a **EU strategic approach** towards programme definition and implementation with strong ownership of industry and Member States in view of Europe's strategic autonomy in this key technology area
- Coordination of EU, and private funding from industry, with **MS/national support** in particular as regards large-scale experimentation and deployment
- **Synergies** with programmes and facilities for large-scale experimentation and **infrastructure deployment** at EU and MS-level
- Support European **consensus among stakeholders and Member States** towards global standards, spectrum roadmaps and other strategic issues

# Governance structure

# 5G Cyber Security Challenges

# Cybersecurity of 5G networks – main milestones

**12 March 2019 Report by the European Parliament.**

**22 March 2019 Conclusions by the European Council.**

**26 March 2019 Commission Recommendation on the cybersecurity of 5G networks**

**July 2019 Member States national risk assessments**

**9 October 2019 EU coordinated risk assessment of 5G networks security.**

**21 November 2019 ENISA report on threats relating to 5G networks.**

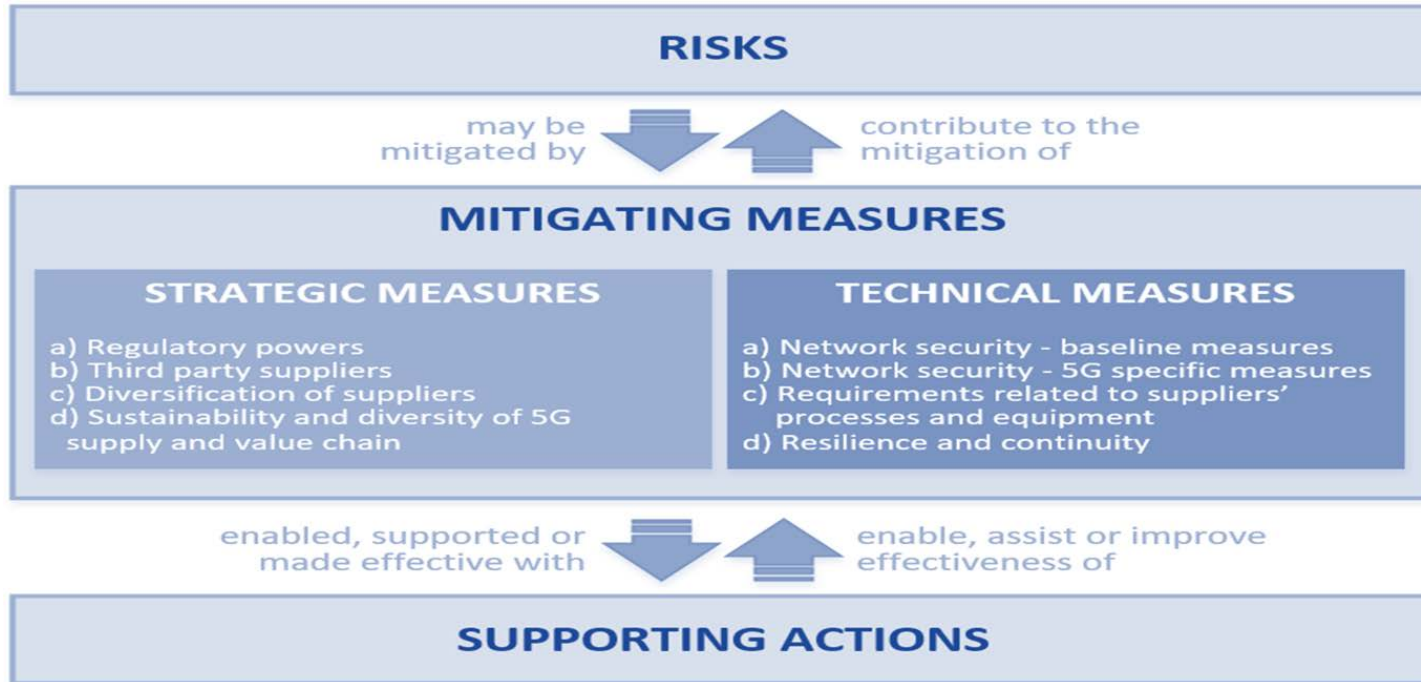

**29 January 2020 EU toolbox of mitigation measures and Commission Communication on the implementation of the EU toolbox.**

## EU coordinated risk assessment – Oct. 2019

- ✓ **Increase of the overall attack surface and potential entry points** for attackers
- ✓ Certain pieces of equipment will become more **sensitive**
- ✓ Increased exposure to risks related to **reliance on suppliers**
- ✓ Importance of the **risk profile of individual suppliers**
- ✓ Increased risks from major **dependencies on suppliers**
- ✓ **Availability** and **integrity** of networks will become major concerns.
- ✓ **State and state-backed actors** are the most serious and most likely to target 5G networks

# EU toolbox for 5G networks – Jan. 2020

Identifies **8 strategic and 11 technical measures** to mitigate the risks, and 10 corresponding supporting actions to reinforce their effectiveness.

## Next steps – *Implementing the toolbox*

- **Endorsement of toolbox conclusions** (key measures to be implemented by all MS and by Commission)
- **By 30 April 2020**, to take concrete and measurable steps to implement the set of key measures recommended in the EU toolbox conclusions; reporting by Member States expected in the next few weeks.
- **By 30 June 2020**, to prepare a report by the NIS Cooperation Group on the state of implementation in each Member States of these key measures, based on the regular reporting and monitoring, with the support of the Commission and ENISA;
- **October 2020**: Review of the March 2019 Recommendation

# *Thank you!*
