MOTIVATION

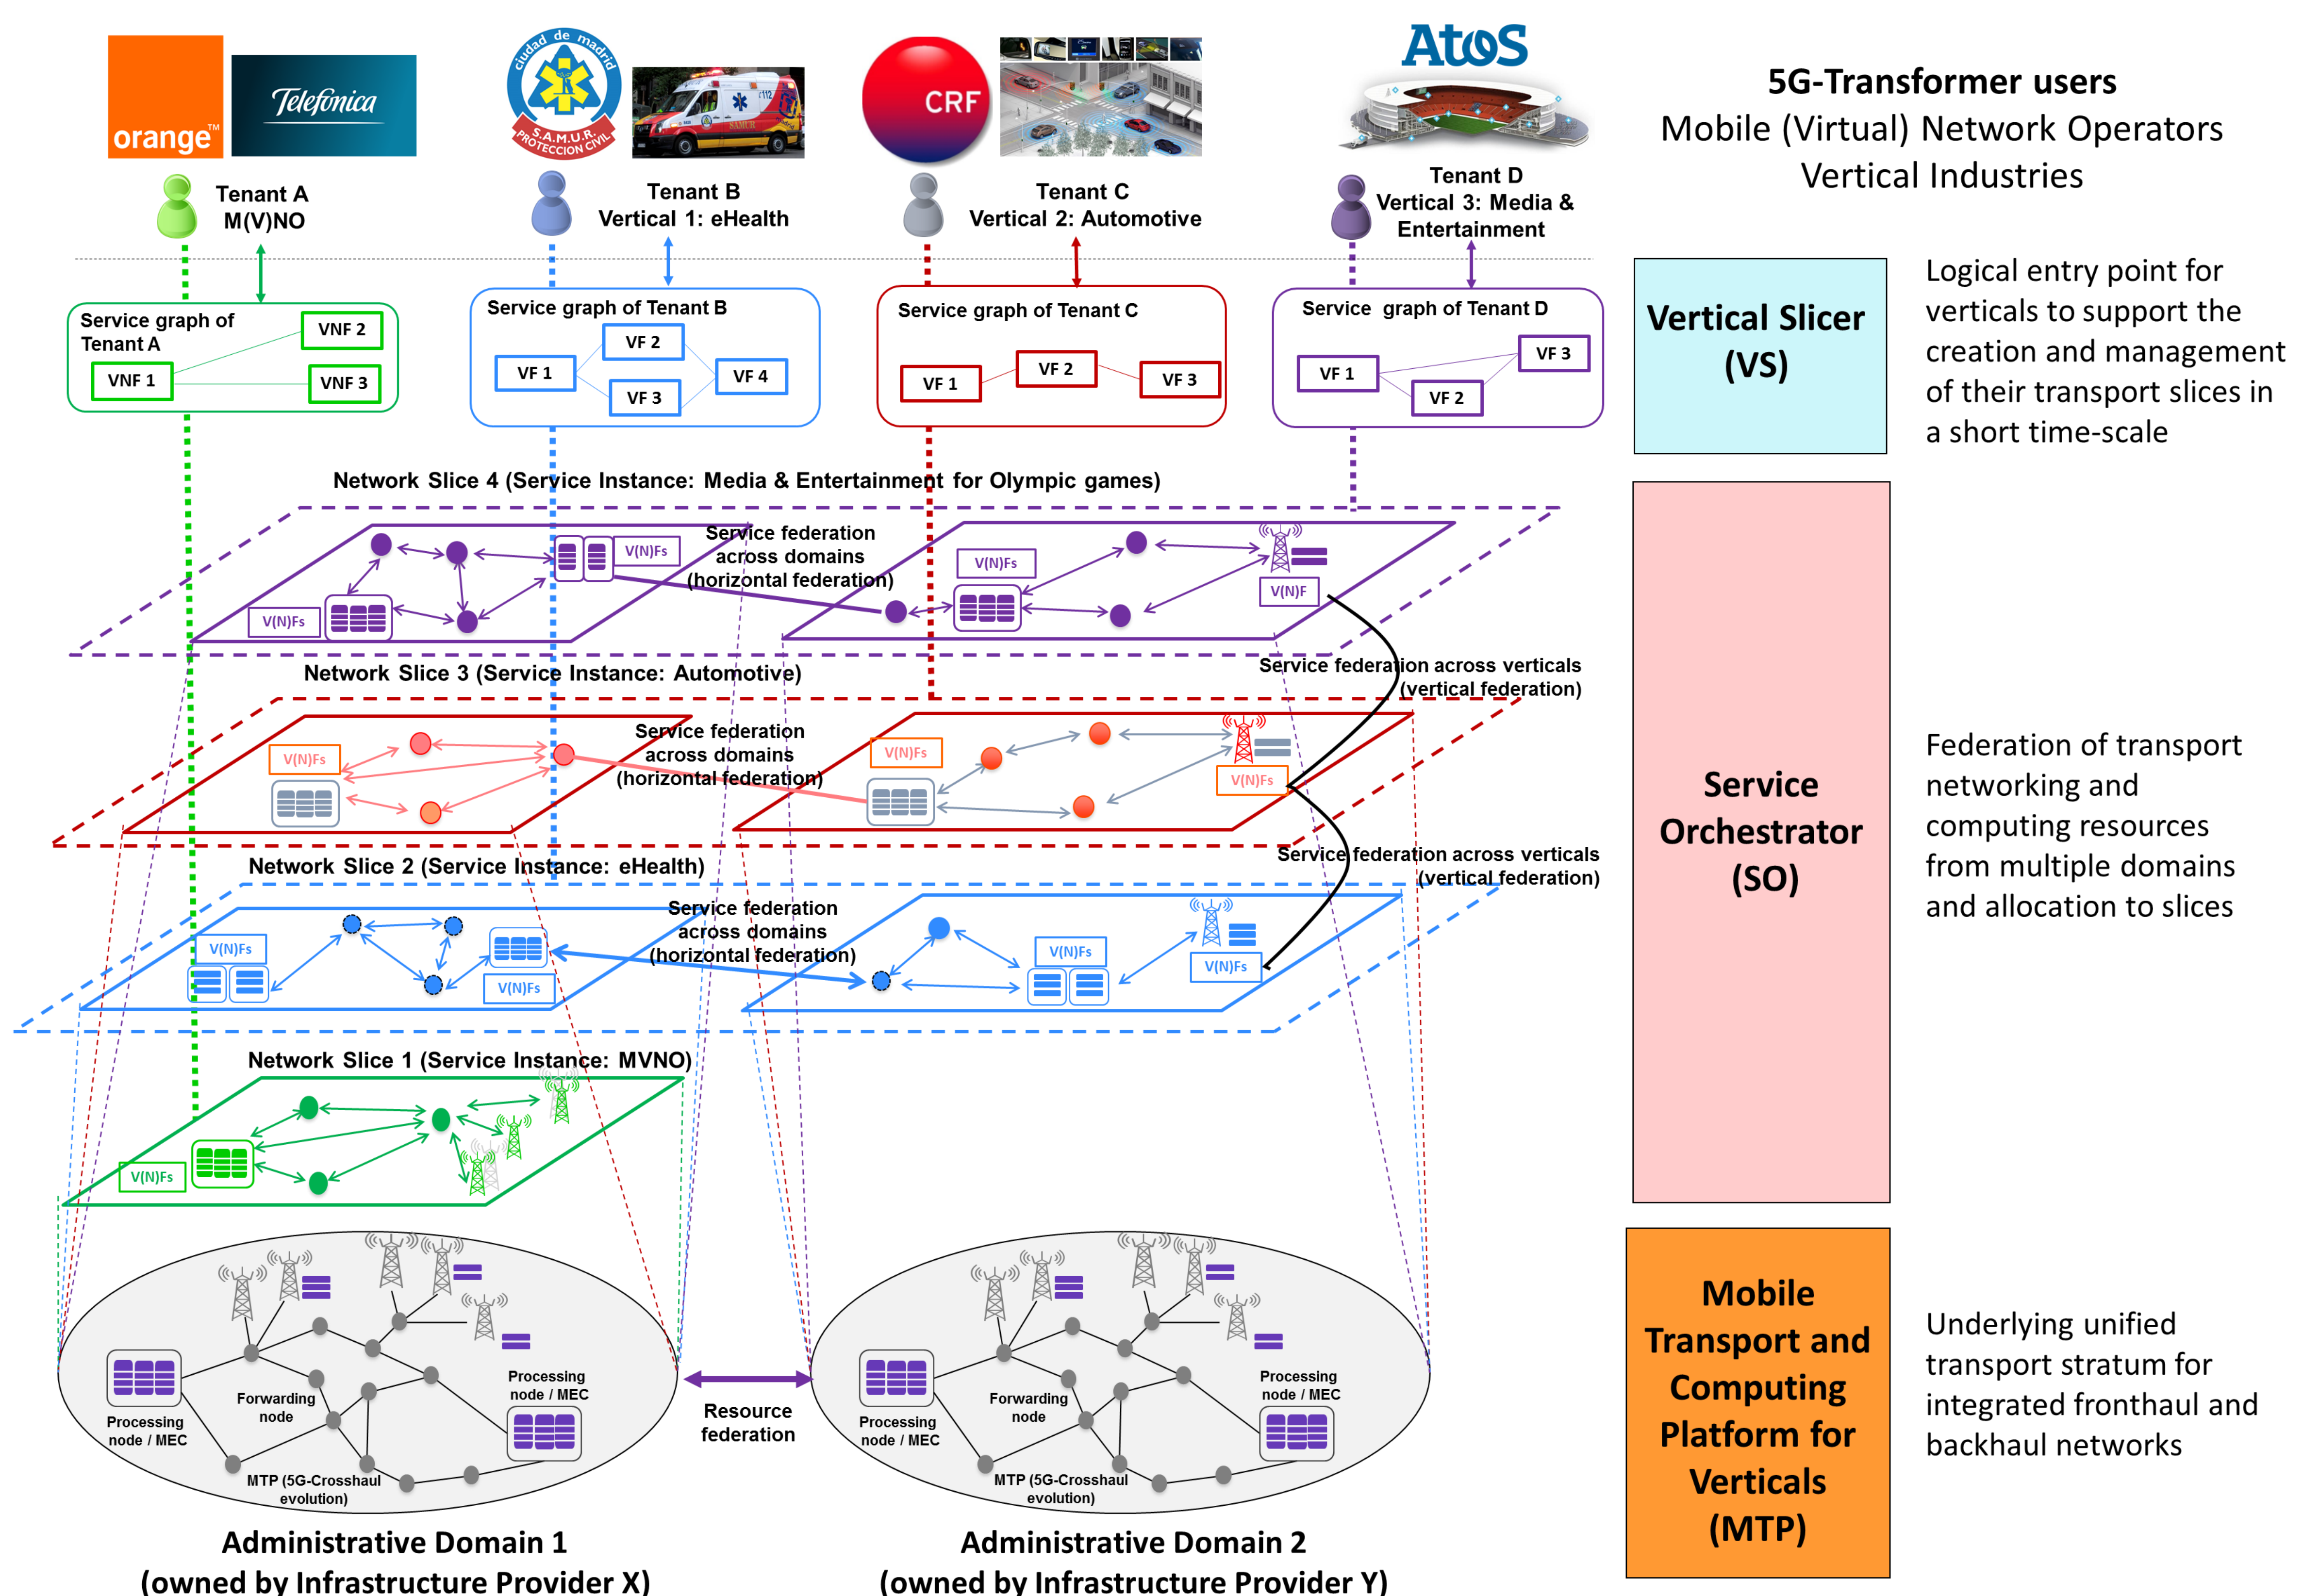

5G-Transformer aims to transform today's mobile transport network into an SDN/NFV-based Mobile Transport and Computing Platform (MTP)

VISION

Mobile Transport Networks shall transform from rigid interconnection into an SDN/NFV-based 5G Mobile Transport and Computing Platform (MTP) supporting diverse vertical industries

TECHNICAL APPROACH

- Enable **Vertical Industries** to meet their service requirements within customized MTP slices; and
- **Aggregate and Federate transport networking and computing fabric**, from the edge up to the core and cloud, to create and manage MTP slices throughout a federated virtualized infrastructure

ADMINISTRATIVE INFORMATION AND PROJECT STRUCTURE

Starting Date: 01/06/2017 — End Date: 30/11/2019

EC contribution: 7.985.582,41 €

Duration: 30 Months — Effort: 996 PMs

Project Coordinator:

Prof. Arturo Azcorra
Universidad Carlos III de Madrid,
Institute IMDEA Networks

Technical Manager:

Dr. Xavier Costa
NEC Labs Europe
